The BP-9-SP is an affordable self-propelled 230 volt single phase blast cleaning system designed for small to medium size jobs as well as being a complimentary unit on larger jobs for doing edges and hard to reach areas. The BP-9-SP is used to prepare concrete surfaces prior to the application of paint, coatings, or overlays on garage floors, balconies, basements, hospital hallways, pool decks, and edges.

| Dust Collector: | Required |

ADVANTAGES OVER COMPETITORS:

- The equipment, as well as all wear parts, are made in the U.S.A. and there is typically no lead time when ordering parts.
- The electrical box and electrical components are engineered and constructed by a UL508A control panel group.
- The type w 12/3 electrical cord is the toughest and most wear resistant cord available.
- 24 hour customer service.

**Production rates are estimates only. Production rates are dependent on job site and application variables.*
