CALIBRA ceramic pads feature a special ceramic bond and are designed for the removal of difficult scratches left behind by the metal bond grinding tools.

The Quick Change system is a new tooling alternative replacing Superabrasive's standard 7 and 9 inch button plates for LAVINA Pro, making for a simpler, reusable system for metals.

The V-HARR® pads are Superabrasive's premium pads for concrete polishing. They are also ideal for terrazzo and soft marble floors, and can be used on any planetary movement floor polisher.

NATO® polishing discs feature a special resin formula designed for both wet and dry applications and a unique design with wide channels allowing to work on a cleaner surface and ensuring a quality polish.

LAVINA 16 Pro is a 16-inch three-head planetary movement machine, suitable for small residential jobs. Designed for both dry and wet applications, and should be accompanied by Superabrasive's standard tooling lines (QuickChange metals, Calibra, Nato and V-Harr polishing pads, etc). Tooling Options for Lavina Machines.

Working Width	16in/510mm
Tool Holder Diameter	3x6.5in/3x165mm
Attachments Speed	3x7in/3x175mm
Horse Power	300-1100rpm
Weight of Machine	3hp /2.2kw
Grinding Pressure	203lbs/92kg
Additional Weights	121lbs/55kg
Application	1x22lbs/10kg
Dust-vacuum	wet or dry
Water-feeding	yes
Water-tank Capacity	2.8gal/10.5L
Voltage	1ph x 208-240V
Amperage	12Amp
Dedicated Breaker	15Amp
Cable Length	57ft/17.4m
Machine Size (LxWxH)	46"x17"x42"
Package Size (in 2 cases)	45"x29"x46"
